## **PAEDIATRIC IMAGING SERVICES**

*When only the best will do!*

As an Imaging Provider we recognise the need for a dedicated Paediatric Imaging service that is focused, passionate and committed to helping our sick kids get better.

Since our commencement of services in June 2010, Southern Radiology, based at Prince of Wales Private Hospital (Randwick), has invested in state-of-the-art technology and the education and training of its staff, to ensure that we deliver a "world class" service in Paediatric Imaging.

Our aim is to provide a warm, personable, friendly and efficient service to all kids that present to our practice.

### **MEET OUR RADIOLOGISTS**

Southern Radiology is pleased to announce that we have two Fellowship-trained Paediatric Radiologists leading our comprehensive paediatric service, based at Prince of Wales Private Hospital (Randwick).

#### **Dr John Pereira**

Dr John Pereira is well known to most GP's and Paediatric Specialists in the Eastern Suburbs. Dr Pereira is a Senior Paediatric Radiologist, whose current appointment is as the Director of the Department of Medical Imaging, at both Prince of Wales Hospital and Sydney Children's Hospital, Randwick.

Dr Pereira completed his undergraduate training at the University of NSW (BSc. Med, MBBS (Hons)),

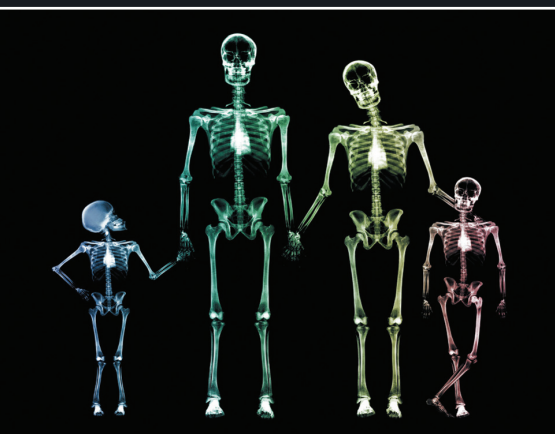

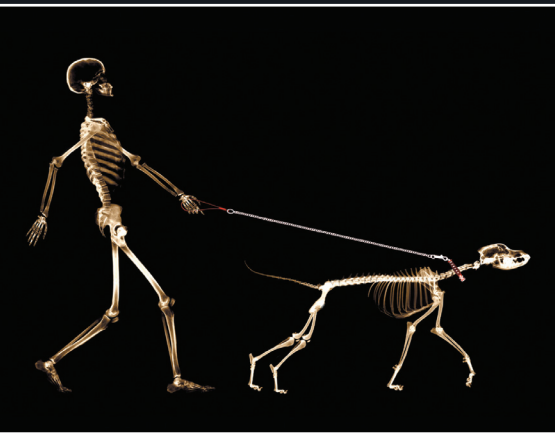

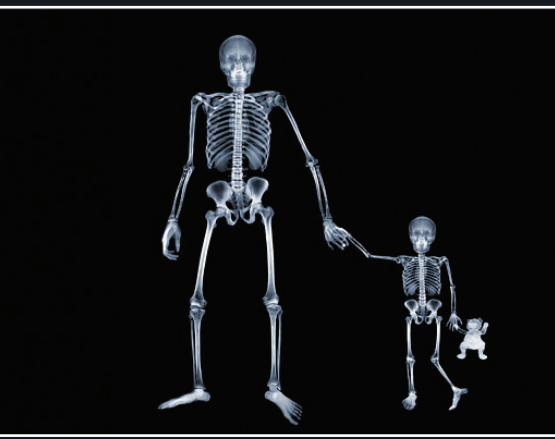

Followed by his postgraduate Radiology training at Prince of Wales/Prince Henry Hospitals (NSW). Dr Pereira then went on to complete his subspecialty Paediatric Fellowship at The Hospital for Sick Children, Toronto, Canada (Diagnostic & Interventional Paediatric Imaging).

After completing his Fellowship, Dr Pereira worked as an Attending at the Children's Hospital of Michigan, USA, and subsequently as a Staff Specialist at both Sydney Children's Hospital and Prince of Wales Hospital, Randwick.

#### **Dr Christopher Wong**

Dr Christopher Wong completed his fellowship in Paediatric Radiology at The Children's Hospital of Michigan, USA. He had been a full time Consultant Radiologist at The Children's Hospital at Westmead from 1998 to 2008, and Director of Department from 2005 to 2008.

He is past president of the Australia and NZ Society for Paediatric Radiology and is currently Associate Editor (Paediatrics) for the Journal of Medical Imaging and Oncology, the official journal of the Royal Australian and NZ College of Radiologists. He remains active in the affairs of the College and continue to provide valuable teaching in Paediatric Radiology to trainee Radiologists. He is also a member of international radiological societies including the Society for Pediatric Radiology and the Society for Paediatric Interventional Radiology.

## Our range of paediatric imaging services include:

- Plain X-rays
- Screening / Fluoroscopy
  - Airway screening
  - Barium meals
  - Small bowel series
  - Barium enemas
  - MCUs
- Ultrasound
  - Abdominal
  - Urinary tract
  - Pelvic
  - Head
  - Hips
  - Orbits
  - Spine
  - Soft tissue lesions including vascular malformations
  - US guided FNAB (using topical Xylocaine cream)
- CT
 

(**Low Dose Imaging** using a NEW GE 750 CT Scanner, with evidence-based paediatric imaging protocols)
- High Field (3T) MRI
 

(excluding patients requiring general anaesthesia)

  - Neuro
  - MSK
  - Body MRI (including MRCP)

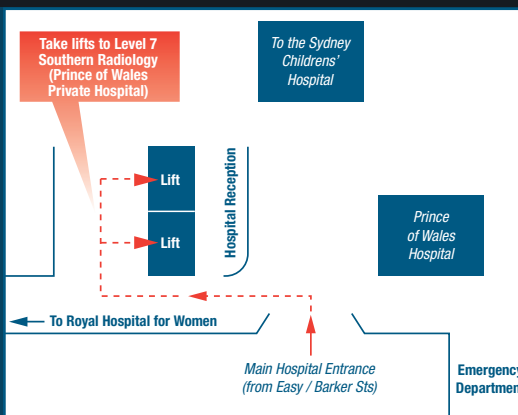

**Note:** For MRI examinations, please note on the request form "Attention: Paediatric Radiologist" to ensure that the examination is supervised and reported by our Paediatric Team.
